Web Developer with remote and in-person experience providing front-end software development services in contracting and traditional employment settings for startup companies in the digital products and services space. Passed Probability (P/1), Financial Mathematics (FM/2), and Models of Financial Economics (MFE/3F) actuarial exams.

Technical Skills: JavaScript, React, Redux, Node.JS, Express.JS, HTML5, CSS3, Sass, SQL, MongoDB, PostgreSQL, Ruby, Ruby on Rails, Git, GitHub, Firebase, TypeScript.

RELEVANT PROFESSIONAL EXPERIENCE

INDEPENDENT CONTRACTING | WEB DEVELOPER   March 2020 to Present
Providing remote front-end development services to ecommerce clients. Core responsibilities:
- Prepared and submitted project proposals, scopes of work; and collaborated with client stakeholders to gather requirements, desired user stories, and develop project roadmaps, and milestones.
- Worked closely with an ecommerce client to develop an online order management solution and responsive client website that facilitated the management and retrieval of customer purchase orders.
- Utilized JavaScript, HTML, and CSS to develop a script that fetched and loaded Shopify purchase order data into a Firebase-hosted CSV file.

UWAVEE | WEB DEVELOPER   May 2020 to Present
Completed a website redesign and provided web application support to UWavee, a music services platform that facilitates the sale of digital products and services by artists, producers, and sound engineers. Core responsibilities:
- Employed JavaScript, HTML, and CSS to overhaul website front end including wireframes, web interfaces, and landing pages and collaborated with writers to incorporate digital/web copy.
- Leveraged Stripe to implement a payment and escrow service.
- Developed and incorporated online chat function and user notification system using SimpleText.
- Created a suite of admin tools to allow easy access to data and analytics

FIT OR MISS | FRONT END DEVELOPER   March 2018 to June 2018
Created landing and classes pages using JavaScript, HTML, and CSS, and integrated Stripe payment solution for a fitness startup while employing responsive web design standards.
